C

TECHNICAL EXPERIENCE

Smart India Hackathon | 2024

Contributed to *SafeAura* – a women safety analytics solution leveraging Python, TensorFlow, and Roboflow, as part of a 6-member team. Achieved 92% accuracy in real-time detection and analysis.

HPE Coding Contest | 2025

Secured a Top 10 position among thousands of participants in a national-level coding contest hosted by Hewlett Packard Enterprise, showcasing strong problem-solving skills and algorithmic thinking.

PERSONAL PROJECTS

Shoporia – E-Commerce Web App

[Github](#) | [Live](#)

Developed a full-stack eCommerce platform using the MERN stack with an integrated Admin Panel for managing products, orders, and users.

Implemented Razorpay payment gateway, ensured authentication and authorization, and designed a responsive, user-friendly UI for seamless shopping across all devices.

Educity – College Info Portal

[Github](#) | [Live](#)

Built a React + Vite frontend application showcasing college details, student testimonials, and a contact form for inquiries.

Focused on an engaging and responsive UI, smooth navigation, and content organization to enhance user experience.
